

## Bird Management Level 2

This two-day advanced course includes one day of classroom style training that gives instruction on pricing, sales, getting creative with recurring revenue, interior removals, bird netting and much more. The second day will be hands on instruction from leaders in the industry, covering unique netting techniques, shock-track and bird-wire creative uses installation.

Topics covered in this training will include:

- Review of Bird Management Level 1
- commercial vs. residential bird management
- interior pest bird removal
- installing bird netting efficiently without compromising quality and safety
- hands on training with netting, electrical track, wire and TowerGuard
- selling commercial bird work
- preparing proposals, and more!

Upon successful completion of this course and a test, the WCO will receive a certificate of completion, use of the logo and become Bird Management Level 2 Certified.

Prerequisites: NWCOA Bird Management Level 1, "OSHA Aerial and Scissor Lift", "OSHA Ladder Safety for Construction", and "OSHA Fall Protection" **You can find these certifications through** <https://www.osha.gov/> or with a third-party vendor like <https://www.oshaeducationcenter.com/> or [www.certifymeonline.net](http://www.certifymeonline.net).
